Beam overall	9,44 m
Water draft	1,50 m
Air draft	25 m
Light displacement (EEC)	30 T
Fuel capacity	1300 l
Water capacity	960 l

# OUTSIDE SPACES

Developed on three decks TAIPAN maintains the elegance of the classics of Lagoon combined with the modernity of the new catamarans.

The large outdoor spaces allow you to fully enjoy the sea in total relax. The Fly bridge allows a 360° view of the surrounding environment.

## Aft dinette

Mobile platform for descent into the sea.

For access to the sea in addition to the two transoms equipped with a ladder there is a lift of over three meters, suitable for descent into the water and as a beach.

In the aft dinette we find a large table suitable for lunches and dinners, large seats and sunbathing.

## Forward dinette

The two large nets also allow you to fully observe the sea and experience it during navigation.

TAIPAN is equipped with a large bow dinette with ample sunbathing, which allows guests to enjoy the maximum of the large forward space.

## Fly bridge

A large fly bridge connected with an elegant staircase opens onto the marine environment, allowing you to have a 360-degree view. In addition, the dinette allow you to experience this area with comfort.

Taipan is one of the most performance catamarans ever developed by the Lagoon shipyard. Thanks to its lines and the technology installed, this model is the perfect link between conductivity and comfort.

# INSIDE SPACES

The Lagoon 560 s2 Taipan allows you to enjoy maximum comfort: a large lounge with dining table, sofà and relaxation area; a spacious master cabin with large bathroom and king size bed; generous VIP cabins and separate crew area.

Max. guests  
number

**10 guests**

Crew number

**2 (+1)**

Guest cabins

**5 double**

Crew cabins

**2**

## Interior dinette

The main feature of Taipan is the fluidity of the environments. The internal dinette is in direct conjunction with the external areas: the large aft sliding door allows to integrate the interior space to the aft dinette. The large relaxation area, large dining table, retractable TV allow a very good livability of this area of the catamaran.

# Cabins

Equipped with 5 cabins reserved for guests plus 2 cabins reserved for the crew, Taipan stands out for the large spaces of the accommodations all equipped with television, air conditioning, safe box and private bathroom.

# ON BOARD AMENITIES

Taipan offers every comfort, making your cruise unique. Each room is equipped with air conditioning, adjustable separately. A water desalinator of 240 l/h allows to always have the necessary supply of water for the whole cruise.
