

Sofia

A FLOATING VILLA

An exclusive yacht developed over three spacious decks, where elegance, comfort, and innovation blend seamlessly to offer an unparalleled cruising experience. The four suites, crafted with premium materials and refined finishes, ensure absolute privacy and relaxation, while the fully separated crew quarters provide discreet and impeccable service, allowing our guests to enjoy a truly extraordinary stay on board.

Attention to detail is our mantra: every space has been designed to convey harmony, functionality, and sophistication. The three outdoor areas complete the onboard experience, offering the perfect setting for every moment of the day. On the flybridge, a generous dining and lounge area welcomes guests for dinners under the stars or moments of pure relaxation with a panoramic sea view; at the bow, an elegant sunbathing area invites guests to unwind and enjoy the sea breeze; while at the stern, a spacious lounge overlooking the water becomes the ideal spot for a sunset aperitif or a peaceful return after a swim.

This yacht is not just a vessel — it is a floating sanctuary of pure well-being, where every detail is conceived to elevate the art of living at sea.
